Topics Include:

- Bioinformatics / Biomedical Informatics
- Clinical Informatics
- Biological Databases
- Comparative Genomics
- Microgenomics / Metagenomics
- Computational Algorithms
- Theoretical Bioinformatics
- Evolutionary Biology
- Gene Annotation / Gene Prediction
- Gene Ontology / Gene Function
- High-Throughput Technology
- Next Generation Sequencing Methods
- Integrative Biology
- Proteomics
- Sequence Analysis / Sequence Alignment
- Genome Scale Patterns
- Structure Bioinformatics
- Systems Biology / Network Biology
- Transcriptomic Analysis
- Variome

INVITED LECTURERS

Dr. Ding Chunming

Singapore Institute for Clinical Sciences

Dr. Christopher Hogue

National University of Singapore
Samuel Lunenfeld Research Institute, Toronto

Prof. Patrice Koehl

UC Davis Genome Center
National University of Singapore

Prof. Jung Kyoon Choi

Genome Institute of Singapore
Korea Advanced Institute of Science and Technology

Prof. Sanghyuk Lee

Korean Bioinformation Center (KOBIC), Korea
Ewha Research Center for Systems Biology (ERCSB)

Dr. Shuichi Onami

RIKEN Advanced Science Institute, Japan

Dr. Ko-ichi Takahashi

RIKEN Advanced Science Institute, Japan

Prof. Hsien-Da Huang

National Chiao Tung University, Taiwan

Prof. Ueng-Cheng Yang

National Yang-Ming University, Taiwan
